**HALLOWEEN CHARMINGS BORDER:**

Here's another option for finishing the set of 4 Halloween Charmings - why not stitch them as part of the border provided, by inserting them as indicated on the graph below, using the color keys provided with each Charming.

DO NOT stitch grey dash lines - those are for placement of each design only.

**BACKSTITCHING AND FINISHING:**

2X (2 strands) of the MAIN COLOR for centre words (black lines). This looks great stitched in black on peach fabric, or stitched in peach on black fabric!

The charm from each "Charming" goes in the corner 'box' by each design (the Kreinik facets from each Charming are tacked in a square as follows: Kreinik Copper Facets (021): tack in place with one strand (1X) of similar colored floss (such as DMC 920), where indicated by black backstitch lines in each box.
